# Professional Engineering Design

Mechanical, Electrical, Plumbing, Fire Alarm and Protection

**Premier Engineering Group, Inc. (PEG)** provides professional engineering services for new and renovated buildings.

Located in Rockaway, NJ, the firm is committed to providing quality service and designs to owners, architects, institutions, government agencies, as well as other engineers.

**PEG** has completed hundreds of projects for:

- ◇ K-12 School Facilities
- ◇ Healthcare Facilities
- ◇ Banks & Commercial Buildings
- ◇ Places of Worship
- ◇ Universities & Colleges
- ◇ Industrial Facilities
- ◇ Municipal Facilities

The design staff at **PEG** can address all of your engineering needs including:

- ◇ Boiler and Chiller Plants (New and Replacement)
- ◇ Hydronic Heating & Cooling Systems
- ◇ DX Cooling Systems
- ◇ Humidity Control Systems
- ◇ Electrical Service Installations
- ◇ Back-up generation
- ◇ Lighting and Lighting Control Systems
- ◇ Domestic Water Systems
- ◇ Sanitary Waste and Vent Systems
- ◇ Natural Gas /Propane Systems
- ◇ Medical and Lab Gas Systems
- ◇ Fire Alarm Systems
- ◇ Sprinkler Systems
- ◇ Building Management Systems

At **Premier Engineering Group**, we stand by our work. A long list of repeat clients is testament to delivering quality service at every opportunity.

No job is too small or too large. The engineers at **PEG** treat each job with the same professional care and consideration, whether to document and evaluate existing conditions, engineer a solution for a complicated renovation or produce all of the MEP construction documents for new construction.

Regardless of the situation, we will listen for your needs and wants, make recommendations, and work together to ensure your (and your client's) satisfaction.

Please contact us for all of your MEP Engineering needs!
